Sweet Welcome

Coming out of the cold for a warm, cozy cup of creamy hot chocolate isn't hard to imagine. Entryways suggests making the dream a reality with its Hot Cocoa Non Slip Doormat made from coir, the outer husk of a coconut. The mat can last half the year, from the crisp fall days, through the holidays and to the bitter end of winter, sure to keep the hot cocoa vibes flowing. Hazard free with a non-slip backing, there's nothing about it that will have visitors pausing before coming inside to warm up. —*T.L.*
